HMGT6327 - Information and Knowledge Management in Healthcare

HMGT 6327 Information and Knowledge Management in Healthcare (3 semester hours) An interactive, experiential course in which students will utilize hands-on, practice-oriented opportunities to learn the core components of clinical information systems used by major health care systems in the United States. The course will include a substantial lab-based component in which students will follow guided exercises and assignments using a leading EMR software. The semester-long course will include a mix of classroom lectures, lab-based software exercises, and case analyses. A prerequisite for this class is HMGT 6323: Healthcare Informatics, a core course required for all MS in HMGT students. (3-0) Y (2016-02-05 21:51:08)
