PA7308 - Social Networks and Intelligence Led Policing

PA 7308 Social Networks and Intelligence Led Policing (3 semester hours) Provides a comprehensive study of concepts and methods for adopting intelligence as a foundation of law enforcement business operations for sound decision-making. Exploiting social networks is a primary means for preventing terrorism and crime. The course explores how intelligence led policing depends on creating strong community social networks to enhance policing of criminal networks. (3-0) R (2016-02-05 21:48:48)
