SYSM6v98 - Systems Management Internship

SYSM 6v98 Systems Management Internship (1-3 semester hours) Student gains experience and improves skills through appropriate developmental work assignments in a real business environment. Student must identify and submit specific business learning objectives at the beginning of the semester. The student must demonstrate exposure to the managerial perspective via involvement or observation. At semester end, student prepares an oral or poster presentation, or a written paper reflecting on the work experience. Student performance is evaluated by the work supervisor. Consent of the SEM Program Director, the School of Engineering Internship Coordinator, and the School of Management Internship Coordinator is required. May be repeated for credit.
