MECH3301 - Mechanics of Materials

**MECH 3301** Mechanics of Materials (3 semester hours) Lecture course. Course material includes determination of stresses, deflections, and stability of deformable bodies, including theory of advanced beams, elasticity and matrix structural analysis. Prerequisites: **MECH 2320** and **ENGR 3300**. (3-0) Y (2016-02-05 21:07:04)
