ACCT6373 - Advanced External Auditing

ACCT 6373 Advanced External Auditing (3 semester credit hours) This course provides an in-depth view of issues related to external audit. The course covers current and emerging issues such as enterprise risk management, advanced communication techniques, managing the audit group, and quality assessment reviews. Weekly assignments and case studies are discussed in detail along with a major project with practitioners. ACCT 4334 will also be counted as a prerequisite. Prerequisite: ACCT 6334.
