ATEC 6365 - Interaction, Communication, and Exchanges in Virtual Societies

**ATEC 6365** Interaction, Communication, and Exchanges in Virtual Societies (3 semester credit hours) This course will address emerging issues related to the ever increasing use of virtual representations of the self and the other in the fields of human interaction, communication, and exchanges. Topics may include education and training, cultural exchanges, and e-government, with the underlying human computer interaction and project management implications. The course will address the design, technical, psychological, ethical, and sociological dimensions in these fields. May be repeated for credit as topics vary (9 semester credit hours maximum).
