MIS 6364 Enterprise IT Architecture (3 semester credit hours) Enterprise IT Architecture (EA) provides a roadmap for the analysis and design of an enterprise in its current and future states from a strategy, business, and technology perspective. The emphasis is on the alignment between IT and organizational objectives through the integration of business architectures, data and information architecture, application architecture, technology architecture, interfaces, and infrastructure. While the course introduces many EA frameworks, it uses TOGAF extensively. (3-0) R (2016-03-17 11:15:08)
