PSCI7372 - Game Theory for Political Scientists

PSCI 7372 Game Theory for Political Scientists (3 semester credit hours) An introduction to formal models with more than one decision-maker, this course will cover basic solution concepts in game theory. The course will pay particular attention to applications in political science, rather than the foundational models in economics. (3-0) R (2016-02-05 23:50:37)
