Graduate Programs in Arts and Technology

The program leading to the MA in Arts and Technology is designed both for individuals engaged in professional practice wishing to enhance their knowledge and skills and for students intending to pursue a doctorate in a related field. It offers advanced studies in interactive media and computer-based arts that emphasize the fusion of creative with critical thinking and theory with practice. Students must complete thirty-six semester hours of coursework and an advanced project.

Master of Arts in Arts and Technology

36 hours minimum

Major Core Courses: 6 hours

ATEC 6300 Interdisciplinary Approaches to Arts and Technology
ATEC 6331 Aesthetics of Interactive Arts

Students are expected to complete these courses as early as possible in their degree plan.

HUSL 6370 Studies in Literature and Ideas

Final Project: 3 hours

ATEC 6V95 Advanced Project Workshop

Having completed at least 30 hours of coursework, students will complete and present an advanced project in digital arts for evaluation by a master's committee.

Master of Fine Arts in Arts and Technology

54 hours minimum
The program leading to the MFA in Arts and Technology is designed both for students wishing to teach arts-and-technology-related courses in colleges and universities and for those intending to engage in professional studio or design practice. While maintaining a commitment to interdisciplinary education fusing critical with creative thinking, this program places greater emphasis on the creation and application of computer-based arts and narrative. Students must complete fifty-four semester hours of coursework and a substantial advanced project.

Having completed at least 45 hours of coursework, students complete and present a substantial advanced project in digital arts for evaluation by a master's committee.
Doctor of Philosophy in Arts and Technology

60 hours minimum beyond the master's degree

The program leading to the PhD in Arts and Technology is designed both for students wishing to teach arts-and-technology-related courses in colleges and universities and those who wish to develop new artistic, cultural or commercial applications of digital technology/emerging media. This program emphasizes the fusion of creative with critical thinking and theory with practice. Students seeking a PhD in Arts and Technology will normally complete a minimum of 60 semester hours (42 hours in coursework and 18 hours in dissertation) beyond a master's degree or its equivalent, pass doctoral field examinations, and complete and defend a dissertation.

Major Core Courses: 9 hours

ATEC 6300 Interdisciplinary Approaches to Arts and Technology
ATEC 6331 Aesthetics of Interactive Arts
ATEC 7331 Research Methodology in Arts and Technology

Students are expected to complete these courses as early as possible in their degree plan.

Prescribed Electives: 21 hours

Twenty-one hours chosen from the following courses:

ATEC 6341 Game Design
ATEC 6351 Digital Arts
ATEC 6361 Creating Interactive Media
ATEC 7340 Advanced Studies in Arts and Technology
ATEC 7V81 Advanced Project Workshop
ATEC 7V82 Advanced Projects in Interactive Media
ATEC 7620 Advanced Projects in Simulation and Game Design
ATEC 8305 Independent Research in Arts and Technology
HUAS 6375 Imagery and Iconography
HUHI 7387 Science and Technology in Western Culture
HUSL 6384 Digital and Visual Rhetorics

Free Electives: 12 hours
Twelve hours of electives in any organized 7000-8000 level courses offered by the Schools of Arts and Humanities, Engineering and Computer Science, Behavioral and Brain Sciences, Management, Economic, Political and Policy Sciences, Natural Science and Mathematics, or Interdisciplinary Studies.

**Doctoral Field Examinations**

After completing all these requirements, students proceed to the doctoral field examinations, a sequence consisting of three written sections and one oral section. The examining committee, composed of three regular members of the faculty, oversees definition and preparation of the three examination fields within guidelines established by the program. At least seven days before the exams themselves, the faculty members submit examination questions to the Arts and Humanities office, which schedules and administers the examination. The maximum time allowed for a student's completion of the examination sequence is 20 business days.

**Dissertation (18 hours minimum)**

Students are formally advanced to PhD candidacy when they have successfully completed the qualifying examinations and received final approval for dissertation topics. A four-person supervising committee is formed, normally from the examining committee plus another regular faculty member proposed by the student, to oversee dissertation work.

Each candidate then writes a doctoral dissertation, which is supervised and defended according to general university regulations. Every student must register for a minimum of nine hours of dissertation credit in two successive semesters and must maintain continuous enrollment thereafter for at least three semester hours during consecutive long semesters until the degree is completed. Any exception to this requirement is granted only by petition to the school's Associate Dean for Graduate Studies.
