School of Behavioral and Brain Sciences

Doctor of Audiology Program

Faculty

Professors: Peter F. Assmann, Michael P. Kilgard, Aage R. Møller, Ross J. Roeser, Robert D. Stillman, Linda M. Thibodeau, Emily A. Tobey

Clinical Associate Professors: Jackie Clark, Carol Cokely, Kenneth C. Pugh, Phillip (Lee) Wilson

Assistant Professor: Andrea Warner-Czyz

Clinical Assistant Professor: Jeffrey S. Martin

Distinguished Scholar in Residence: James F. Jerger

Faculty Associates: Beth Bernthal, Jenifer Carlock, Yun-Chih (Lee) Chen, Lisa Flores, Elizabeth Gill, Shawna Jackson, Shari Kwon, Amanda Labue, Elizabeth Mani, Holly Marvin, Lisa Richards, Cheryl Taylor, Sarah Tillman, Laura Veazey

Objectives

Doctor of Audiology (AuD): The AuD degree offers broad-based professional preparation in audiology within an environment supporting an active program of clinical services and research. Students receive comprehensive exposure to clinical methods and procedures across the scope of practice in audiology and to the scientific foundations from which clinical approaches are derived. Clinic rotations are provided at the Callier Center and medical and educational settings throughout the Dallas-Fort Worth Metroplex.

AuD/PhD degree track: Students who are interested in combining clinical and research training may combine the AuD with the PhD in Communication Sciences and Disorders. Students must apply separately to the PhD program to be considered.

Facilities

The principal site for the academic, clinical, and research activities of the Doctor of Audiology program is the UT Dallas Callier Center for Communication Disorders, which is adjacent to The University of Texas Southwestern Medical Center. Courses and practicum are also offered at UT Dallas Callier Richardson on the main campus of the University. The UT Dallas Callier Advanced Hearing Research Center provides specialized clinical and research facilities for the program. In addition to the Callier outpatient clinics, the Callier Center houses the Dallas Cochlear Implant Program, the Dallas Regional Day School for the Deaf, Tinnitus and Hyperacusis Clinic, Auditory Processing Clinic, and Assistive Devices Center.
Admission Requirements

The University's general admission requirements are discussed on the Graduate Admission page (catalog.utdallas.edu/2013/graduate/admission).

Admission to the Doctor of Audiology Program is based on a review of the applicant's GPA, GRE scores, letters of recommendation, and narrative description of interest in audiology, research interests, and career goals. The GRE score is included in the evaluation of the applicant's record. There is no minimum cut-off scores for admission.

Degree Requirements

The University's general degree requirements are discussed on the Graduate Policies and Procedures page (catalog.utdallas.edu/2013/graduate/policies/policy).

The Doctor of Audiology (AuD) degree requires 100 semester hours. Students completing the AuD degree meet the academic and clinical practicum requirements for the Certificate of Clinical Competence offered by the American Speech-Language-Hearing Association and Texas State licensure requirements for audiology. Specific degree requirements follow.

AUD 7351 Physiologic Assessment of Vestibular System
AUD 7240 Auditory Processing Disorders
AUD 6314 Instrumentation

Various Doctoral Electives in AuD (taken 2 times: a 3-semester credit hour course)

Experiential: 28 hours

AUD 7280 Doctoral Practicum in Audiology (taken 8 times)
AUD 8V80 Individual Research in Audiology
AUD 8V97 Doctoral Internship in Audiology (taken 3 times)

Out-of-Field Students

Students entering the program who lack undergraduate preparation in communication disorders or science are required to take a specified sequence of corequisite courses. Students may take these courses at The University of Texas at Dallas prior to the beginning of the program, or concurrently during AUD courses.

Students are advised that participation in clinical rotations mandates some personal expense. All students must obtain lab coats and professional liability insurance. Off campus clinical rotations and externship may have additional expenses such as a criminal background check, drug screening, TB screening, chicken pox titer, hepatitis vaccination, CPR certification, and fingerprinting. Students excluded from off-campus sites for any reason may be unable to complete all degree requirements.
