School of Natural Sciences and Mathematics

Actuarial Science (BS)

The Bachelor of Science Actuarial Science (AS) Program at the University of Texas at Dallas is administered through the Department of Mathematical Sciences.

Students receive a rigorous mathematical background including all the major courses taken by students majoring in mathematics or statistics. Further, ten courses devoted to finance, economics, applied statistics, insurance and actuarial science are required. Upon completion of this program, a student will have the knowledge and business background necessary to pursue a career as an actuary, as well as to undertake graduate study in actuarial science, statistics, mathematics, economics or finance.

Faculty

Professors: Larry P. Ammann, Michael I. Baron, Sam Efromovich, Robert Serfling

Associate Professor: Pankaj K. Choudhary

Clinical Associate Professor: Natalia Humphreys

Bachelor of Science in Actuarial Science

Degree Requirements (120 hours)

I. Core Curriculum Requirements: 42 hours

Communication (6 hours)

3 hours Communication (RHET 1302)
3 hours Business Communication (BCOM 3311)

Social and Behavioral Sciences (15 hours)

6 semester credit hours Government (GOVT 2301 and GOVT 2302)
6 hours American History
3 hours Social and Behavioral Sciences Elective (ECON 2301)

Humanities and Fine Arts (6 hours)
3 hours Fine Arts (ARTS 1301)
3 hours Humanities (HUMA 1301)

Mathematics and Quantitative Reasoning (6 hours)
6 hours Calculus (MATH 2417 and MATH 2419)² ³ ⁴

Science with at least 1 hour of laboratory (9 hours)²

PHYS 2325 and PHYS 2125 Mechanics with Laboratory
  or PHYS 2421 and PHYS 2125 Honors Physics I - Mechanics and Heat with Laboratory
  or CHEM 1311 and CHEM 1111 General Chemistry I with Laboratory
PHYS 2326 and PHYS 2126 Electromagnetism and Waves with Laboratory
  or PHYS 2422 and PHYS 2126 Honors Physics II - Electromagnetism and Waves with Laboratory
  or CHEM 1312 and CHEM 1112 General Chemistry II with Laboratory
And an additional acceptable science course

II. Major Requirements: 77 hours

Major Preparatory Courses (29 hours)

ACCT 2301 Introductory Financial Accounting
ACCT 2302 Introductory Management Accounting
ACCT 3320 Financial Information Management
CS 1337 Computer Science I
ECON 2302 Principles of Microeconomics
MATH 2417 Calculus I² ³ ⁴
MATH 2419 Calculus II² ³ ⁴
MATH 2418 Linear Algebra
MATH 2420 Differential Equations with Applications
MATH 2451 Multivariable Calculus with Applications

Major Core Courses (48 hours)

ACTS 4301 Principles of Actuarial Models: Life Contingencies I
ACTS 4302 Principles of Actuarial Models: Financial Economics
ACTS 4304 Construction and Evaluation of Actuarial Models
ACTS 4308 Actuarial Financial Mathematics
FIN 3320 Business Finance
MIS 3300 Introduction to Management Information Systems
FIN 4300 Investment Management
FIN 3390 Introduction to Financial Modeling
MATH 3310 Theoretical Concepts of Calculus
MATH 3311 Abstract Algebra I
MATH 3379 Complex Variables
MATH 4334 Numerical Analysis
STAT 4382 Stochastic Processes
STAT 3355 Data Analysis for Statisticians and Actuaries
STAT 4351 Probability
STAT 4352 Mathematical Statistics

III. Elective Requirements: 1 hour

Freshman students are required to take UNIV 1010 and NATS 1101. 5

Preparation for Actuarial Exams

Exam 1/P: STAT 4351 or ACTS 4306
Exam 2/FM: ACTS 4308, FIN 3320, and FIN 4300
Exam 3L/MLC: ACTS 4301
Exam 3F/MFE: ACTS 4302
Exam 4/C: ACTS 4304

Validation by Educational Experience (VEE) Credits

Applied Statistical Methods: STAT 3355 and STAT 4382
Corporate Finance: FIN 3320
Economics: ECON 2301 and ECON 2302
Minor in Actuarial Science

The Minor in Actuarial Science program at UT Dallas is administered through the Department of Mathematical Sciences. It is ideal for students who are interested in broadening their experience and knowledge base in the study and analysis of principles of Actuarial Science. The minor core courses prepare students for a number of actuarial exams required for a designation of Associate of the Society of Actuaries, Casualty Actuarial Society, or Canadian Institute of Actuaries. Specifically, the minor provides students with an intense background in principles of actuarial models. All of the courses in the minor serve as starting points for learning the concepts covered on the preliminary actuarial exams (P/1, FM/2, MLC/3L).

Students not majoring in Actuarial Science may obtain a minor in Actuarial Science by satisfying 24 semester credit hours (9 semester credit hours of minor core courses and 15 semester credit hours of minor preparatory courses).

Minor Preparatory Courses (15 hours)

- **MATH 2417** Calculus I (Differential Calculus)
- **MATH 2419** Calculus II (Integral Calculus)
- **MATH 2451** Multivariable Calculus with Applications
- **MIS 3300** Introduction to Management Information Systems

Minor Core Courses (9 hours)

- **STAT 4351** Probability
- **ACTS 4301** Principles of Actuarial Models: Life Contingencies I
- **ACTS 4308** Actuarial Financial Mathematics

1. Curriculum Requirements can be fulfilled by other approved courses from accredited institutions of higher education. The courses listed in parenthesis are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.

2. A required Major preparatory course that also fulfills a Core Curriculum requirement. Hours are counted in Core Curriculum.

3. Six hours of Calculus are counted to fulfill the Mathematics Core Requirement with the remaining 2 hours to be counted under Major Preparatory Courses.

4. Students may choose one of the following calculus sequences: (a) MATH 2413, MATH 2414, and MATH 2415; or (b) MATH 2417 and MATH 2419.

5. NATS 1101 may be substituted for an appropriate elective for transfer students.

6. Students whose major does not require MATH 2417 and MATH 2419 as part of their Mathematics and Quantitative Reasoning Core Curriculum Requirements, should take this sequence as their core curriculum courses to ensure
efficiency toward the minor.

7. These classes prepare for the three preliminary actuarial examinations jointly administered by the Society of Actuaries (SOA), Casualty Actuarial Society (CAS) and the Canadian Institute of Actuaries (CIA).
