Master of Science in Marketing

36 semester credit hours minimum

Degree Requirements

The Master of Science in Marketing program is designed to meet the needs of students in today’s data driven marketplace, where the exponential growth in data generated from store scanners and web transactions, navigation, search, and more recently, social media, requires new marketing skills and knowledge.

The Master of Science in Marketing program allows students to choose from six different tracks:

- Advertising and Brand Management
- Business Development and Sales
- Digital Advertising and Marketing
- Marketing Analytics and Market Research
- Marketing Management
- Product Management

The Master of Science in Marketing is designed for students with or without previous educational background in this area. Courses are primarily offered in the late afternoon and evenings of weekdays. Several courses are currently offered online.

At least 36 semester credit hours of management coursework is required for the Master of Science degree, including nine semester credit hours of business core courses, nine semester credit hours of marketing core courses and 18 semester credit hours of marketing focused core courses and/or electives depending on the track chosen.

Students can obtain a dual MS and MBA degree by taking a total of 63 semester credit hours (assuming they meet all the degree requirements for both programs). Students must maintain a 3.0 grade point average in both core courses and in aggregate courses to qualify for the MS degree.

Prerequisites

Calculus is not a requirement or prerequisite for the MS in Marketing degree program.
