**Degree Requirements**

The Master of Science in Business Analytics (MS BUAN) is an STEM (Science, Technology, Engineering and Mathematics) degree program (18-24 months) at the Naveen Jindal School of Management that provides students with a broad foundation in the business intelligence and analytics area. The program includes core courses and analytics electives organized into different tracks such as Marketing Analytics, Decision and Operations Analytics, Financial Analytics, Healthcare Analytics and IT for Analytics. Students must maintain a 3.0 grade point average in both core courses and in aggregate courses to qualify for the MS degree.
