Clinical Associate Professor: Carolyn Reichert

Assistant Professor: Bernhard Ganglmair, Kyle Hyndman, Jun Li, Ningzhong Li, Arzu Ozoguz, Alessio Saretto, Christian Von-Drathen, Malcolm Wardlaw, Han (Victor) Xia, Jieying Zhang

Clinical Assistant Professors: Moran Bluestein, Ayfer Gurun, Liping Ma, Anastasia V. Shcherbakova

Senior Lecturer: Frank Anderson, Anindita Bardhan, Tiffany A. Bortz, Richard Bowen, George DeCourcy, Amal El-Ashmawi, Jared Pickens, James Richards, Steven Solcher, Kathy Zolton

Degree Requirements

At least 36 semester credit hours of management coursework beyond prerequisite courses is required, including 18 semester credit hours of basic business core courses and 18 semester credit hours of graduate finance courses. The MS in Finance is designed for students with or without previous educational background in finance. Many students will select the Financial Management option, which allows them to design a program to their needs.

For students wanting a more focused program, six concentrations are available: Investment Management, Financial Analyst, Financial Risk Management, Energy Risk Management, Management of Financial Institutions, or Real Estate. The Investment Management concentration is designed for students interested in pursuing an investment career and completing the Chartered Financial Analyst (CFA) examinations. The Financial Analyst concentration is designed for students interested in corporate finance, investment banking, venture capital, private equity, or corporate restructuring and turnarounds. The Financial Risk Management concentration is designed for
students with the quantitative ability to pursue a career applying quantitative methods to risk management problems and prepares students for the Financial Risk Manager (FRM) examinations. The Energy Risk Management concentration is designed for students with the quantitative ability to pursue a career applying quantitative methods to energy risk management problems and prepares students for the Energy Risk Manager (ERM) examinations. The Management of Financial Institutions concentration prepares students for careers in banking or other financial institutions. The Real Estate concentration prepares students for various types of careers in the real estate industry. Because these concentrations have been designed to prepare students for certain certifications, students are recommended to focus on the coursework within a particular concentration in order to prepare for its associated certification.

Students must maintain a 3.0 grade point average in both core courses and in aggregate courses to qualify for the MS degree.

Prerequisites

Calculus and basic statistics are required as prerequisites. Candidates that have not taken equivalent courses will need to take OPRE 6303 to meet the calculus requirement and OPRE 6301 to complete the basic statistics requirement.

Course Requirements

Basic Core Courses: 18 semester credit hours

All students enrolling in the Master of Science in Finance program must complete the following Basic Business Core courses, or their equivalents. Please see the catalog for further prerequisite information.

ACCT 6305 Accounting for Managers

or ACCT 6201 Introduction to Financial Accounting and ACCT 6202 Introduction to Managerial Accounting
