The program leading to the MA in Emerging Media and Communication focuses on ways in which network technologies are transforming the creation and dissemination of information and content. Providing an interdisciplinary education that connects theory with practice, the program combines the creation of digital content for multiple communication platforms with examination of cultural issues created by emerging technology. The program is intended for (a) researchers interested in engaging these issues to prepare to pursue a PhD, (b) professionals in fields such as journalism, design, public relations, and advertising that are powerfully affected by emerging communicative technologies, (c) graduates of programs in the humanities, media studies, communication, and journalism who wish to gain expertise in emerging media, and (d) teachers in the humanities and other fields that will be profoundly affected by new modes of communication and information transfer, and (e) graduates with degrees in computer science or related fields who wish to gain expertise in communication. Students must complete 30 semester credit hours of coursework and a Capstone Project (EMAC 6391) of at least 3 semester credit hours.

Master of Arts in Emerging Media and Communication

33 semester credit hours minimum

Faculty

Professors: Anne Balsamo, Frank Dufour, Monica Evans, Paul Fishwick, Roger Malina, Mihai Nadin
