Degree Requirements

The Master of Science in Information Technology Management (MS ITM) degree requires a minimum of 36 semester credit hours, consisting of business core courses, IT core courses, IT elective courses, and free electives. The business core courses are designed to provide incoming students with the context to better appreciate and understand the complex issues that occur at the interface between IT and business. The IT core courses cover the essentials of IT knowledge and the IT elective courses provide in-depth knowledge of the technology and technology management issues. In addition, students may choose approved electives that maximize their individual educational and professional goals. The program also offers opportunities for students to concentrate in specific tracks such as Enterprise Systems, Business Intelligence and Analytics, IT Consulting and Services Management, Healthcare Systems, and Cybersecurity Management, depending on their interests. Students can contact the advising office for the recommended courses for these tracks. Students must maintain a 3.0 grade-point average (GPA) in both business core courses and in aggregate courses to qualify for the MS degree.

Graduate Certificate in Healthcare Information Technology

9 semester credit hours
Faculty

Professor: Indranil R. Bardhan
Assistant Professor: Mehmet Ayvaci

Overview

The Graduate Certificate in Health Information Technology emphasizes practical concepts in healthcare IT and hands on experience gained using electronic medical records (EMR) software. The focus will be on identification and understanding the key information required for managing and working with healthcare information systems. It also demonstrates the use of analytics and software tools related to healthcare information to develop sound healthcare decisions, particularly the core functionalities of the EMR software platform, including how to support clinical information workflows in a paperless environment, and the interconnectivity with other clinical and business systems.

Courses required for graduate certificate in health information technology (9 semester credit hours)

HMGT 6323 Health Informatics
HMGT 6327 Electronic Health Records
HMGT 6334 Healthcare Analytics

Faculty

Assistant Professor: Atanu Lahiri
Clinical Assistant Professor: Judd Bradbury
Senior Lecturers: Eugene (Gene) Deluke, Mary Beth Goodrich, Luell (Lou) Thompson

Overview

The Graduate Certificate in Enterprise Systems emphasizes theoretical concepts in enterprise resource planning and hands on experience using SAP software. It provides broad exposure to various SAP functional modules such as sales and distribution, supply chain management, customer relationship management, procurement, human capital management, accounting, and data warehousing. Furthermore, the certificate program provides students with an opportunity to get an in-depth knowledge of two of these modules. The Graduate Certificate in Enterprise Systems is awarded after completion of MIS 6319 Enterprise Resource Planning, and two of the courses listed below.
