School of Behavioral and Brain Sciences

Psychology (BS)

William James characterized psychology as "the study of mental life." Psychology is both a domain of scientific inquiry and a field of applied practice. The science of psychology is concerned with the study of how people perceive, learn, feel, think, develop, and interact with others. The practice of psychology helps people improve mental health, learning, and performance.

Undergraduate degrees in psychology provide students a number of career options. Further study in graduate school leads to professional careers as clinical, counseling, industrial, academic, and other kinds of psychologists. Psychology is also a useful major for students planning careers in law, management, medicine, or social work. A psychology major provides students with the knowledge about human behavior and methods of research and data analysis that is valuable in business, helping fields, and many other occupations.

The Psychology program at UT Dallas approaches the field from a scientific perspective, applying behavioral science research methods to the study of the human mind and behavior. Thus, students will have laboratory experiences in addition to lectures, reading, and demonstrations. Psychology students learn to evaluate evidence relating to theories of social behavior, personality development, perception, memory, brain processes, and other facets of human experience. Students also gain hands-on experience through internship placements, directed research experiences in professors' labs, and individualized study with faculty in specialized topics.

The undergraduate degree awarded through the Psychology program is a bachelor of science. Students may choose electives to obtain a broader grounding in psychology or a general education in the liberal arts. Students should note that it is possible to select clusters of electives that lead to particular concentrations in careers and graduate study. Students can complete Core Curriculum and Psychology major requirements in a minimum of 78 semester credit hours, leaving 42 elective semester credit hours.

Bachelor of Science in Psychology

Degree Requirements (120 semester credit hours)

Faculty

I. Core Curriculum Requirements: 42 semester credit hours

Communication: 6 semester credit hours

COMM 1311 Survey of Oral and Technology-based Communication

RHET 1302 Rhetoric
Mathematics: 3 semester credit hours

Choose one course from the following:

- **MATH 1306** College Algebra for the Non-Scientist
- **MATH 1314** College Algebra
  
or **MATH 2417** Calculus I

Life and Physical Sciences: 6 semester credit hours

Select 6 semester credit hours from Life and Physical Sciences core courses (see PSY Advisor for options)

Language, Philosophy and Culture: 3 semester credit hours

Choose one course from the following:

- **HUMA 1301** Exploration of the Humanities
- **LIT 2331** Masterpieces of World Literature
- **PHIL 1301** Introduction to Philosophy
- **PHIL 2316** History of Philosophy I
- **PHIL 2317** History of Philosophy II

Creative Arts: 3 semester credit hours

Choose one course from the following:

- **AHST 1303** Survey of Western Art History: Ancient to Medieval
- **AHST 1304** Survey of Western Art History: Renaissance to Modern
- **AHST 2331** Understanding Art
- **ARTS 1301** Exploration of the Arts
- **DANC 1310** Understanding Dance
- **DRAM 1310** Understanding Theater
- **FILM 2332** Understanding Film
- **MUSI 1306** Understanding Music

American History: 6 semester credit hours

Choose two courses from the following:

- **HIST 1301** U.S. History Survey to Civil War
HIST 1302  U.S. History Survey from Civil War  
HIST 2301  History of Texas  
HIST 2330  Themes and Ideas in American History  
HIST 2332  Civil War and Reconstruction  

Government / Political Science: 6 semester credit hours  
GOVT 2305  American National Government  
GOVT 2306  State and Local Government  

Social and Behavioral Sciences: 3 semester credit hours  
PSY 2301  Introduction to Psychology  

Component Area Option: 6 semester credit hours  
PSY 2317  Statistics for Psychology  
  or STAT 1342  Statistical Decision Making  
  or STAT 2332  Introductory Statistics for Life Sciences  

AND one of the following:  
PSY 2314  Lifespan Development  
PSY 2364  Animal Communication  
CGS 2301  Cognitive Science  

II. Major Requirements: 36 upper-division semester credit hours  

Major Preparatory Courses: 6 semester credit hours (0 semester credit hours beyond Core Curriculum)  
PSY 2301  Introduction to Psychology  
PSY 2317  Statistics for Psychology  
  or STAT 1342  Statistical Decision Making  
  or STAT 2332  Introductory Statistics for Life Sciences  

Major Core Courses: 24 upper-division semester credit hours  
NSC 3361  Introduction to Neuroscience  
PSY 3360  Historical Perspectives on Psychology: Mind and Machines since 1600  
PSY 3361  Cognitive Psychology
or **PSY 4359** Cognitive Neuroscience

**PSY 3392** Research Design and Analysis

**PSY 3393** Experimental Projects in Psychology

**PSY 3331** Social Psychology

**PSY 3310** Child Development

**PSY 4343** Abnormal Psychology

**Major Related Courses:** 12 upper-division semester credit hours

Guided Electives; 3 semester credit hours of one of the following:

- **PSY 4394** Internship in Psychology
- **PSY 4395** Co-op Fieldwork
- **PSY 4V96** Teaching Internship
- **PSY 4397** Thesis Research
- **PSY 4V98** Directed Research
- **PSY 4V99** Independent Study

Plus any 9 semester credit hours of courses with PSY or CGS or CLDP or NSC prefixes or the following courses: **SPAU 3301**, **SPAU 3303**, **SPAU 3304**, **SPAU 3340**, **SPAU 3343**, **SPAU 3344**, **SPAU 3345** or **SPAU 4308**.

### III. Elective Requirements: 42 semester credit hours

**Free Electives:** 42 semester credit hours

Electives are selected by students to explore areas of concentration in Psychology as well as explore interests outside the field. Both lower- and upper-division courses may count as electives but students must be sure to complete at least 51 semester credit hours of upper-division courses to qualify for graduation.

**Fast Track Baccalaureate/Master's Degrees**

UT Dallas undergraduate students with strong academic records who intend to pursue a master’s degree in Human Development and Early Childhood Disorders or in Applied Cognition and Neuroscience at UT Dallas may consider an accelerated undergraduate-graduate plan of study. If accepted into the program, students may take up to 15 semester credit hours of graduate courses that may be used to complete the baccalaureate degree and also to satisfy requirements for the master's degree. Students must maintain a 3.000 grade point average and earn grades of B or better in graduate courses taken.

https://catalog.utdallas.edu/2016/undergraduate/programs/bbs/psychology
Students should apply for Fast Track admission in the semester they reach 90 semester credit hours. To qualify for application, undergraduate students must have completed at least 18 semester credit hours in major core courses at UT Dallas. To be eligible for Fast Track admission, students must have completed at least 90 semester credit hours toward a baccalaureate degree and meet program admission requirements, including submission of GRE scores. Apply to the Fast Track program through the Program Office of the master's program. Students should consult with a graduate advisor regarding admissions criteria and plans of study.

1. Incoming freshmen must enroll and complete requirements of UNIV 1010 and the corresponding school-related freshman seminar course. Students, including transfer students, who complete their core curriculum at UT Dallas must take UNIV 2020.

2. Curriculum Requirements can be fulfilled by other approved courses from accredited institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.

3. A required Preparatory course that also fulfills a Core Curriculum requirement. Semester credit hours are counted in Core Curriculum.
