MIS 6352 - Web Systems Design and Development

MIS 6352 Web Systems Design and Development (3 semester credit hours) Provides an in depth examination of web application design evaluation practices and web application development techniques. A web application is developed using an agile, team based, software development methodology leveraging a combination of CSS, HTML, JavaScript, XHR, DOM, PHP, and MySQL. Emphasis is given to hands on application of course material through development of a web application prototype under conditions simulating a business environment. (3-0) Y
