Degree Requirements

The Master of Science in International Management Studies (MS IMS) is a minimum 36 semester credit hours degree program that enables students to strategically manage business operations in both domestic and international settings. Students learn about the analysis of functional areas of domestic and international management, while gaining practical and theoretical knowledge of cultural, sociopolitical, and geographical challenges and opportunities affecting international business decisions. Students must take core courses first, then electives and then courses from a specific concentration. To apply for this degree program, an undergraduate degree is required (all majors are considered). Students must maintain a 3.0 grade-point average (GPA) in both core courses and in aggregate courses to qualify for the MS degree. Students can obtain a double MS and MBA degree by taking a total of 63 semester credit hours (assuming they meet all the degree requirements for both programs).

Prerequisites

Students pursuing the Master of Science in International Management Studies (MS IMS) degree program are required to complete one semester credit hour of **MAS 6102** Professional Development course. Degree credit is not earned for program prerequisites, however, the grade achieved in prerequisites will count toward the student’s grade-point average (GPA). All program prerequisites must be satisfied within the first semester of graduate study as a degree-seeking student.

Course Requirements

**Core Courses: 12 semester credit hours**
All new MS IMS students must take the following core courses during their first semester.
