

## PSCI4344 - Race and Redistricting

[PSCI 4344](#) Race and Redistricting (3 semester credit hours) Examines the politics and process of redrawing congressional and state legislative district lines, notably how this process is influenced by politics as well as by important principles and laws. Reviews the history of redistricting in the U.S. House of Representatives and considers recent redistricting and the role of race in this process. (3-0) R
