School of Interdisciplinary Studies

The School of Interdisciplinary Studies provides an environment that allows students to understand and integrate the liberal arts and sciences. The school administers interdisciplinary degree programs that afford students the opportunity to design their degree plans on an individualized basis. To assist the student in pursuing a course of study leading to successful completion of an undergraduate degree, the school provides a unique support structure. Included in this structure is the school's Internship Program that supports professional work experience in diverse career settings. The educational environment of Interdisciplinary Studies is especially congenial to students eager to pursue unconventional or innovative combinations of coursework.

Programs

The School of Interdisciplinary Studies administers the programs for the Bachelor of Arts in American Studies, the Bachelor of Science in Healthcare Studies, the Bachelor of Arts in Interdisciplinary Studies, and the Bachelor of Science in Interdisciplinary Studies. The program in American Studies is designed for students who wish to learn more about United States' institutions, arts, and society, both in the past and present. The Bachelor of Science in Healthcare Studies is designed for those planning to enter the healthcare professions and affiliated fields. The Bachelor of Arts and the Bachelor of Science in Interdisciplinary Studies Programs emphasize a broad learning experience and a wider perspective than that provided by traditional undergraduate majors. All programs are designed for students who wish to choose among conventional disciplines, both to explore a variety of topics and to integrate courses focusing on a particular area of interest. They are also appropriate for those students who seek a thorough grounding in the traditional arts and sciences from an interdisciplinary perspective. For students in other schools who wish to broaden their education by including a School of Interdisciplinary Studies program, the double degree is recommended. This option calls for a minimum of 30 semester credit hours at the upper division beyond those necessary for the major with the larger semester credit hour requirement. In addition, the student must satisfy all requirements for both majors. The School of Interdisciplinary Studies encourages double majors in American Studies and Healthcare Studies, but a double major is not an option in Interdisciplinary Studies. Students seeking to double major in American Studies or Healthcare Studies must consult with the Associate Dean for Undergraduate Education in the School of Interdisciplinary Studies. The School of Interdisciplinary Studies is now working in collaboration with the Health Professions Advising Center to offer health courses under the prefix of HLTH. In order to graduate with a degree from the School of Interdisciplinary Studies, students must complete 51 semester credit hours of upper-division coursework. They must complete a minimum of 45 semester credit hours at UT Dallas. In the final semester, all the coursework should be taken at UT Dallas.

Fast Track Baccalaureate/Master's Degrees

In response to the need for post-baccalaureate education, a Fast Track program is available to well-qualified UT Dallas undergraduate students. Qualified seniors may take up to 15 graduate semester credit hours that may be used to complete the baccalaureate degree and also to
satisfy the requirements for the master's degree. Interested students should see the Associate 
Dean of Undergraduate Education (ADU) for specific requirements.

Internship Program

All undergraduates in the School of Interdisciplinary Studies are encouraged to take an 
internship with an organization in the community. Internships provide students with the 
opportunity to apply the knowledge and skills that they have mastered in their academic work. 
Students applying for internships must be in their junior or senior year and in good academic 
standing, have completed the appropriate coursework, and receive approval of the Internship 
Director. Students normally enroll for 3 to 6 semester credit hours. Students interested in the 
program should see the Internship Director of the School of Interdisciplinary Studies or call 972/883-2354.

Honors in the Major

The School of Interdisciplinary Studies offers Honors Programs, which vary, by major, and 
provide an intellectually challenging opportunity for the brightest and best students in the 
School of Interdisciplinary Studies.

Junior and Senior students with a cumulative UT Dallas GPA (grade point average) of 3.900 are 
eligible to apply for the honors programs, which consist of a defined curriculum of 30 semester 
credit hours, including an upper-division writing course, and an internship component. Due to 
our high GPA entrance requirements, an honors thesis is not required for honors in the major. 
For Honors with distinction, however, an honors thesis is required. This thesis must be 
submitted at least one week before the end of classes, and must be nominated by the 
supervising professor as being of exceptional quality. The faculty of the school (or a subgroup 
thereof) will then determine if the thesis warrants this level of distinction. Students must apply 
for Departmental Honors through their academic advisor at the time they apply for 
graduation. For applications and more details, please consult your Interdisciplinary Studies 
academic advisor.

Minors

Minors offered by the School of Interdisciplinary Studies are available to students in all majors 
except for students taking the Bachelor of Arts or the Bachelor of Science in Interdisciplinary 
Studies. There is no minor offered in Interdisciplinary Studies. Students enrolled in the 
Bachelor of Arts in American Studies and the Bachelor of Science in Healthcare Studies are 
encouraged to take any minor offered by any school at the University. Students may also 
contact the academic advisor in their major for a list of the courses that satisfy each minor. 
Students who take a minor will be expected to meet the normal prerequisites in courses 
making up the minor, and should maintain a minimum GPA of 2.000 on a 4.00 scale (C 
average). Minors available within the School of Interdisciplinary Studies are:

- American Studies
- Environmental Studies
- Exercise Sciences
- Gender Studies
- Healthcare Studies
See catalog.utdallas.edu/2018/undergraduate/programs/is/minors.

Faculty

All faculty in the University are eligible to participate.
