MIS6323 - Object Oriented Programming in Java

MIS 6323 Object Oriented Programming in Java (3 semester credit hours) This course discusses software
development concepts and the development of object oriented systems. Topics covered include problem
solving techniques, algorithm specifications, debugging, and testing of computer programs. Students solve
small programming problems and write their solutions as high quality programs in Java. Credit cannot be
received for both course, MIS 6323 and MIS 6382. (3-0) Y
