OB6377 - The Neuropsychology of Leadership

**OB 6377** The Neuropsychology of Leadership (3 semester credit hours) Executive Education Course. Exploration of the manner in which advances in the neurosciences inform organizational interventions in the area of leadership. This course explores basic neural structures and functions and how these are activated within interactions between leaders and their teams as indicated by research. Of particular importance will be the relevance to workplace dynamics, particularly how the research can be translated into leadership practices that can augment productivity and engagement as well as research exploring which practices can derail organizations.
