SYSE6324 - Nonlinear Systems

**SYSE 6324 (BMEN 6388 and EECS 6336 and MECH 6313)** Nonlinear Systems (3 semester credit hours) Differential geometric tools, feedback linearization, input-output linearization, output injection, output tracking, stability. Prerequisite: **EECS 6331** or **MECH 6300** or **SYSM 6307** or equivalent. (3-0) T
