Naveen Jindal School of Management

Master of Science in Business Analytics

36 semester credit hours minimum

Faculty

Clinical Professors: Ranavir Bose, Forney Fleming III, William Hefley, Peter Lewin, Daniel Rajaratnam, Rajiv Shah, Mark Thouin

Associate Professors: Mehmet Ayvaci, Jianqing Chen, Surya N. Janakiraman, Atanu Lahiri, Amit Mehra, Young U. Ryu, Gil Sadka, Harpreet Singh, Upender Subramanian, Feng Zhao

Clinical Associate Professors: Dawn Owens, Carolyn Reichert

Assistant Professors: Radha Mookerjee, Shaojie Tang, Yingjie Zhang, Zhe (James) Zhang

Clinical Assistant Professors: Moran Blueshtein, Judd Bradbury, Sourav Chatterjee, Maria Hasenhuttl, Jeffery (Jeff) Hicks, Liping Ma, Ravi Narayan, Jason Parker, James Scott, Nassim Sohaee

Senior Lecturers: Vivek Arora, Abu Naser Islam, Prithi Narasimhan, Timothy Stephens, Luell (Lou) Thompson, gxs151030

Degree Requirements

The Master of Science in Business Analytics (MS BUAN) is a 36 semester credit hours STEM (Science, Technology, Engineering and Mathematics) degree program that provides students with a broad foundation in the business analytics and data science area. The program prepares students for professions in data science, big data, and analytics space. The core courses are designed to provide the foundation of tools and techniques to be used in the analytics domain whereas the electives allow for business application of the core techniques in Accounting, Finance, Healthcare, IT, Marketing, and Operations. The program provides two options:

(1) The Flex Program allows students the flexibility to complete the program at their own pace and tailor their degree in preparation for specific career goals by selecting electives from various fields, including Accounting, Finance, Healthcare, IT, Marketing, and Operations. The purpose of the program is to equip students with the technical tools and professional communication skills needed to practice in business analytics. Admission to the program occurs in Fall, Spring, and Summer semesters.

(2) The Cohort Program is a two-year program in which students take all courses together as a cohort. It is designed for students from various backgrounds to gain knowledge to pursue opportunities in business
analytics. The purpose of the program is to develop effective leaders in business analytics. Special tuition, fees, and admissions requirements apply and the program is supported entirely by participant tuition/fees. Admission to the program typically occurs only in the Spring semester.

To apply for this degree program, an undergraduate degree is required (all majors are considered). Students must maintain a 3.0 grade-point average (GPA) in both core courses and in all graduate courses taken in the degree program, excluding program prerequisites to qualify for the MS degree.

Prerequisites

Students pursuing the Master of Science in Business Analytics degree program are required to fulfill one semester credit hour of MAS 6102 Professional Development course. In addition, knowledge of calculus is required and students who have not completed an undergraduate calculus course may satisfy the prerequisite by completing OPRE 6303 Quantitative Foundations in Business. Degree credit is not earned for program prerequisites, however, the grade achieved in prerequisites will count toward the student's grade-point average (GPA). All program prerequisites must be satisfied within the first semester of graduate study as a degree-seeking student.

Course Requirements

Core Courses: 18 semester credit hours

- BUAN 6312 Applied Econometrics and Time Series Analysis
- BUAN 6320 Database Foundations for Analytics
- BUAN 6324 Business Analytics With SAS
  or BUAN 6356 Business Analytics With R
- BUAN 6337 Predictive Analytics Using SAS
- BUAN 6398 Prescriptive Analytics
- OPRE 6301 Statistics and Data Analysis
  or OPRE 6359 Statistics for Data Science

Elective Courses: 18 semester credit hours

Students may choose any course with a BUAN prefix, excluding BUAN core courses, or any course from one or more tracks in the following areas to obtain in-depth knowledge in a specific industry domain. Students may also substitute up to six semester credit hours master's-level courses from any unrestricted course/prefix offered within JSOM.

- BUAN 6009 Business Analytics Internship (Required Elective)

Accounting Analytics Track
ACCT 6301 Financial Accounting
or ACCT 6330 Intermediate Accounting I
ACCT 6336 Information Technology Audit and Risk Management
ACCT 6343 Accounting Information Systems
ACCT 6344 Financial Statement Analysis
or ACCT 6332 Intermediate Accounting II
ACCT 6384 Analytical Reviews Using Audit Software
or ACCT 6334 Auditing
ACCT 6386 Government, Risk Management and Compliance

Cybersecurity Analytics Track
MIS 6316 Data Communications
MIS 6330 Cybersecurity Management
MIS 6333 Digital Forensics and Incident Management
MIS 6337 Information Technology Audit and Risk Management
MIS 6343 Advanced Cybersecurity Management
MIS 6348 Digital Governance Risk and Compliance
MIS 6384 Preparing for Cybersecurity Threats

Data Engineering Track
BUAN 6340 Programming for Data Science
BUAN 6345 High Performance Analytics
BUAN 6346 Big Data
BUAN 6347 Advanced Big Data Analytics
MIS 6309 Business Data Warehousing
MIS 6363 Cloud Computing
MIS 6383 Advanced Data Management

Data Science Track
BUAN 6335 Organizing for Business Analytics: A Systems Approach
BUAN 6340 Programming for Data Science
BUAN 6341 Applied Machine Learning
**Decisions and Operations Analytics Track**
- **OPRE 6302** Operations Management
- **OPRE 6304** Operations Analytics
- **OPRE 6332** Spreadsheet Modeling and Analytics
- **OPRE 6335** Risk and Decision Analysis
- **OPRE 6377** Demand and Revenue Management
- **OPRE 6378** Supply Chain Strategy

**Financial Analytics Track**
- **ACCT 6301** Financial Accounting
- **FIN 6301** Financial Management
- **FIN 6307** Mathematical Methods for Finance
- **FIN 6352** Financial Modeling for Corporate Analysis
  - or **FIN 6353** Financial Modeling for Investment Analysis
- **FIN 6360** Derivatives Markets
- **FIN 6368** Financial Information and Analysis
- **FIN 6382** Numerical and Statistical Methods in Finance
- **FIN 6392** Financial Technology and Blockchain

**Healthcare Analytics Track**
- **HMGT 6320** The American Healthcare System
- **HMGT 6323** Healthcare Informatics
- **HMGT 6325** Healthcare Operations Management
- **HMGT 6327** Electronic Health Records Applications
- **HMGT 6334** Healthcare Analytics
- **BUAN 6335** Organizing for Business Analytics Platforms

**Marketing Analytics Track**
- **MKT 6301** Marketing Management
- **MKT 6309** Marketing Research
MKT 6323 Database Marketing
MKT 6336 Pricing Analytics
MKT 6338 Enterprise Systems and CRM
or MKT 6340 Marketing Projects
MKT 6342 Marketing Customer Insights Development
MKT 6343 Social Media Marketing and Insights
MKT 6352 Marketing Web Analytics and Insights

Social Media Analytics Track

BUAN 6335 Organizing for Business Analytics Platforms
BUAN 6340 Programming for Data Science
BUAN 6341 Applied Machine Learning
MIS 6334 Advanced Business Analytics with SAS
MIS 6344 Web Analytics
MIS 6373 Social Media Business
MIS 6378 Enterprise Systems and CRM
MIS 6380 Data Visualization

1. Students may use BUAN 6009 only for their first internship and any additional internship must be completed as BUAN 6V98 (3 semester credit hours maximum). Students may also substitute BUAN 6009 with BUAN 6V98 or BUAN 6390 to fulfill internship requirement.
2. Requires prior approval of the Marketing program director
