HMGT 4321 - Introduction to Healthcare Information Systems

Study in healthcare information systems examines key processes in healthcare organizations and how information systems support the delivery of healthcare services. The course also deals with issues surrounding the selection, implementation, and use of electronic medical records (EMR) and offers opportunities to work hands-on with EMR software. Prerequisites: HMGT 3301 and ITSS 3300. (Same as ITSS 4320) (3-0) Y
