School of Arts, Technology, and Emerging Communication

Arts, Technology, and Emerging Communication with Animation Pathway (BA)

Students who wish to specialize in Animation within the Arts, Technology, and Emerging Communication major may apply to be admitted into the Animation Pathway after consultation with their academic advisor. This pathway provides a thorough grounding in the development and creation of digital animation in its various forms, including 3D Computer Animation, Motion Graphics, and Motion Capture. Students are eligible to apply to the Animation Pathway during their third semester within the School. Admission to the Animation Pathway requires a portfolio submission including course work examples, a writing component, and any other materials deemed appropriate. Pathway acceptance is determined by an Animation faculty jury. If accepted, Animation Pathway students will have the opportunity to work in a studio environment, explore visual narrative and experimental animation, and learn project development and management practices. The Animation Pathway examines the potential of animation in diverse areas such as entertainment, education, and visualization. Close consultation with academic advisors is recommended. By selecting courses from a variety of School elective headings, students are able to infuse other areas of interest into their Animation studies. Unless otherwise noted, courses in Arts, Technology, and Emerging Communication are open to all students in the University. However, students majoring in Arts, Technology, and Emerging Communication may be given preference in certain course enrollments.

Free Electives: 15 semester credit hours
Both upper-and lower-division courses may be used as electives, but students must complete at least 51 semester credit hours of upper-division courses to qualify for graduation.

1. Incoming freshmen must enroll and complete requirements of UNIV 1010 and the corresponding school-related freshman seminar course. Students, including transfer students, who complete their core curriculum at UT Dallas must take UNIV 2020.

2. Curriculum Requirements can be fulfilled by other approved courses from institutions of higher education. The courses listed are recommended as the most efficient way to satisfy both Core Curriculum and Major Requirements at UT Dallas.

3. Students who are ATEC/CS double degree or who plan to minor in CS must enroll in CS 1336 Programming Fundamentals and CS 1136 Computer Science Laboratory and/or CS 1337 Computer Science I (if placed out of CS 1336 and CS 1136).

4. Students who are ATEC/CS double degree or who plan to minor in CS must enroll in CS 2336 Computer Science II.
