ACCT6373 - Advanced External Auditing

ACCT 6373 Advanced External Auditing (3 semester credit hours) This course provides an in-depth view of issues related to external audits. The course covers current and emerging issues such as enterprise risk management, advanced communication techniques, managing the audit group, and quality assessment reviews. Weekly assignments and case studies are discussed in detail along with a major project with practitioners. Prerequisite: ACCT 6334 or an undergraduate degree in Accounting and adequate foundation/academic performance in a corresponding area. (3-0) S
