ITSS4360 - Network and Information Security

**ITSS 4360** Network and Information Security (3 semester credit hours) With the advances in information technology, the security of information assets has become a keenly debated issue for organizations. While much focus has been paid to technical aspects of the problem, managing information security requires more than technology. Effective information security management demands a clear understanding of technical as well as socio-organizational aspects of the problem. The purpose of this course is to prepare business decision makers who recognize the threats and vulnerabilities present in current information systems and who know how to design and develop secure systems. Prerequisites: **ITSS 3300** and (**MATH 1326** or **MATH 2414** or **MATH 2419** or **OPRE 3340**) and (**CS 2305** or **MATH 2418** or **MATH 2333** or **OPRE 3333**). (3-0) Y
