School of Arts, Technology, and Emerging Communication

Arts, Technology, and Emerging Communication with Critical Media Studies Concentration (BA)

Students who wish to specialize in Critical Media Studies (CMS) within the Arts, Technology, and Emerging Communication major may apply to be admitted into the CMS Concentration after consultation with their Academic Advisor. This Concentration provides a thorough grounding in thinking critically, analytically, and creatively about media, their use, and their historical development. Admission to the Critical Media Studies Concentration requires a portfolio submission including course work examples, a writing component, and any other materials deemed appropriate. Concentration acceptance is determined by a CMS faculty jury. If accepted, CMS Concentration students will have the opportunity to perform critical media research and engage in the critical creative production of media. The CMS Concentration examines the ethical and social dimensions of media and applies that knowledge in the creation and analysis of digital media texts. By selecting courses from a variety of School elective headings, students are able to infuse other areas of interest into their focus on Critical Media Studies.

Unless otherwise noted, courses in Arts, Technology, and Emerging Communication are open to all students in the University. However, students majoring in Arts, Technology, and Emerging Communication may be given preference in certain course enrollments.
