

ED5320 - Issues in Educational Technology

[ED 5320](#) Issues in Educational Technology (3 semester credit hours) This course addresses two key technological issues that directly impact education: information overload and nonlinear processing. These same challenges offer the key to effective design and integration of web-based media into the classroom learning environment. Teachers, administrators, researchers, and curriculum developers will learn how to select/apply appropriate tools to enhance classroom teaching and school management. This course is offered in an online format only. Instructor consent required. (3-0) Y
