

ECON4342 - Public Policies Toward Business

[ECON 4342](#) Public Policies Toward Business (3 semester credit hours) Analysis of the economic rationale for government intervention in markets. The course considers direct intervention in the form of price, entry, and/or product quality directives, the economic welfare foundations of public utility economics, and the theory of regulation and deregulation, including indirect regulation through antitrust laws. Topics include collusion, price discrimination, vertical restraints, and other attempts to monopolize a market. Prerequisite: [ECON 3310](#). (3-0) R
